

**A Few Of My Masters.**

12-21-2024 Drones Buzzed New Jersey & New York. The ETs told me 14 of their UFOs landed. Out of this there were "7 telepathic contacts to brief their human agents. 2 of the 7 telepathic contacts were videoed by human beings who will publish years later when needed".

#### US officials give details on objects shot down

All 3 objects looked different, and those shot down over Alaska and Canada may have had payloads, officials say

White House makes clear there's no indication downed objects are "of aliens or extraterrestrial activity"

12-24-2024 Undal says; This Friday the 27th at noon **Mars** celebrates the end of the the "**Nockey War**". Also, on Xmas at 3pm EST Master will bless us. (Note: CEC forgot the blessing.)

12-31-2024 I'm being told I will become a leader?? WTF? I've got no skills! "Your voice will grow like Thunder"! You will serve your master. (**Mohammed Sofiane Mesbahi**). The stage is set. You will make easy master's way! Nothing can stop you. You may not like this but it is your Karma. Masters says; "Your thoughts are my thoughts. Your words are my words! I speak through you. You will not be harmed. You're unsure of yourself. That will change. Your confidence will grow in time. You will make the right choice in my name. I will soften your burdens, I will restore you to full health. Your steps are guarded! I will show you the way.

1-14-2025 Undal says; "Emergency fleet from Neptune to be deployed over L.A. fires tomorrow to help humans & environment. Look for a lot of UFO sightings in the next 3 months!"

1-29-2025 When ETs races of our solar system come back from long missions they like to party on the Moon. This is where they socialize with family & friends.

2-8-2025 Master Maitreya's History: As of this entry Master is **81** solid physical Earth years old. That makes him 9 years older than me. It took him "**5 to 6 years**" to step down his **mental, astral and etheric body**, so as to create an **Earth solid physical earth body** to reincarnate into. This was needed for Human Beings to relate too on his current mission. It is my understanding that a group of "**Himalayan Holy Men**" helped him to fashion the body. This occurred in a certain ashram in the mountains. Once that was done, His consciousness incarnated into that created body on **July 1977**. On **July 8th 1977** Master descended from his Himalayan ashram and head for India. From **July 8th to July 18th 1977** Master acclimatize his new body. Next on **July 19th 1977** he took an airplane up into the clouds and flew to England. He landed in London and currently lives in the Pakistani-Indian section there.

2-10-2025 Moboo with a bun in the oven. We will call him "**Light**"!

2-13-2025 As Above, So Below: I talked with my soul. It said it too has its own Karma Path. It said it's Karma is different than the personality's Karma Path. That is, the soul's

karma is not the same as the personality. The *soul's* determines the *personality* Karma but the "*divine spark* or *3 permanent atoms*" determines the *soul's* karma. Both the soul and personality are in the dark as to the divine spark's plan or agenda for that reincarnation. The soul knows the *general* event experiences it has in mind, but the *specifics* are hidden. Likewise, the divine spark knows the *general* outline for the reincarnation but lacks *specifics*. As best as I can tell this all has to do with the paradox of "**Free will**" VS "**Fate**"! This is way above my pay grade, but it seems to me to have to do with some experiences being **mandatory** while others are **optional**? Both the soul & it's personality's seek to know their paths.

Question For Laitha: "What are the aging rates for Apple & Sunshine?"

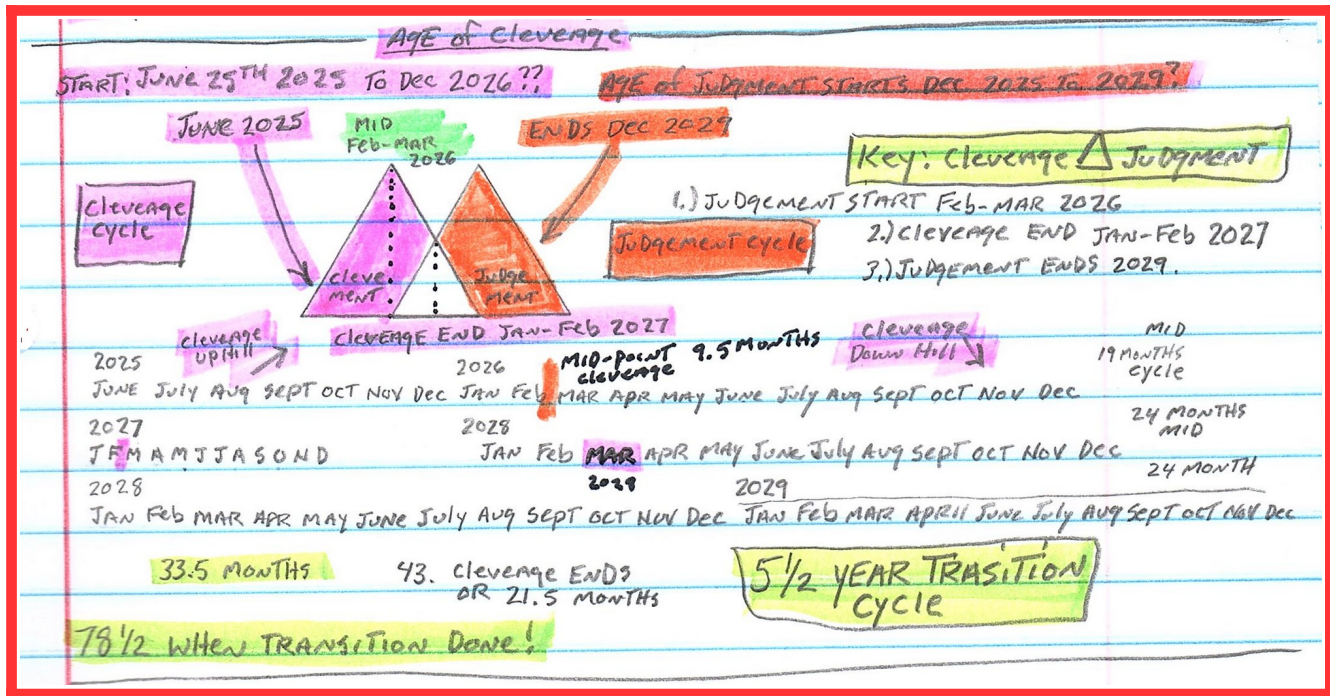

Answer: 1 ET years equals 6 Earth years. 3.5 ET years equals 21 earth years. At 21 the ratio becomes a 1:1 aging rate. Question for Heidi: For Ralph Martin does 4.2 ET years equal 21 earth Years? "YES. At 21 years the ET to Earth aging rate also becomes 1:1!  
(At the time of this entry Heidi & I didn't have a name for our next baby.)

2-19-2025 Undal said I will stand down from my UFO/UBI postings until **June 25th 2025**.

(See my log 11-13-2024 & 8-16-2025 entries for "June 2025 till the end of 2029". This is the occult notion of the Sword of Cleavage which merges into the Day of Judgment social cycles for Earth.)

I was picking up on a US Intelligence Agency going over my my Internet postings. I sensed psychically that they have I.D. me as high source ET Contactee by the "Industrial Surveillance Complex". I may be wrong but I think they want to shop me for ET intel?

***This is my best guess for these two overlapping cycles***

## Laitha History

2-24-2025 Laitha said that she was born in a etheric physical test tube. The doctor-scientists were also

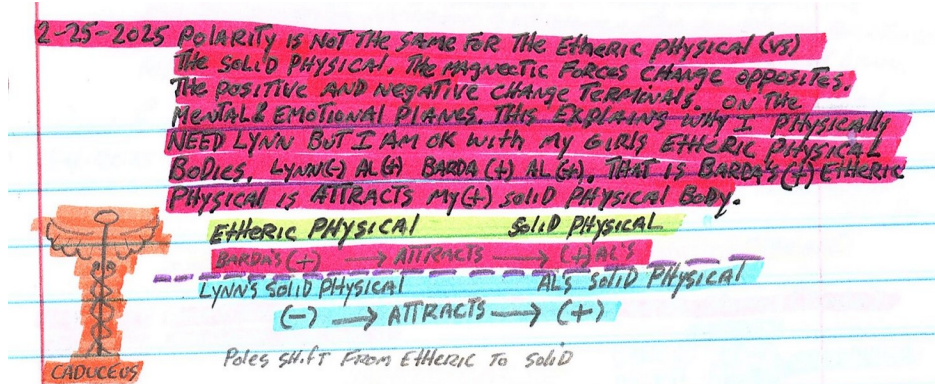

etheric physical. That is, they are etheric-physical human beings from the **lower 3.5!**

## Etheric Physical (VS) Solid Physical Polarity

2-25-2025 See Original Log Entry:

## Dream Testing Device

2-30-2025 My ET kids showed me the "***Dream Testing Device***" they been using to measure my fight or flight responds while I'm dreaming. They also use it to train me spiritually; or to teach me about their technology & culture! Sometimes they create ethical dilemmas for me to figure out. This seems to come and go in cycles. If I am in a dream testing cycle then they do not do medical interventions on my body. At lot of the time they show me other UFO ships designs. planets. (See log entry: **1-28-2026** for more background)

## Laitha

These doctor-scientists used **Laitha** as a sex slave & repair technician. Her main role was to repair the high tech on the base. On **July 21st 2010**, Abena freed and then adopted the 17 year old Laitha (*Earth Years*) after a armed conflict with the "**Brigade**".

**There are two types of members:**

**1.)Ethereic-Physical Humans Beings. And Solid Physical Earth Humans.**  
**2.)Ethereic-Physical Rigel Reptilians. And Solid Physical Rigel Reptilians**

**Note Well:** Not all the 4 groups members are bad. Some of "**Brigade**" are good. That is, *both good and bad* Rigel ETs & their humans counter parts, *serve in the Brigade*. Once again, The Rigel ETs & Humans range from very bad news to slightly bad intentions. Also, **Laitha's** Kids aging rate for **Sunshine & Apple Martin** is **1** ET year per **5** human years. Her birth cycle is **7** human months. **Laitha** was born from an *etheric physical test tube*. As a slave she worked for **Rigel Reptilians**. Later on, they traded her to the "*Brigade's Etheric-Physical Humans Beings*" side. When Abena and her forces invaded the Brigade's base in New York State, Laitha was freed. On **July 21st 2010** she was adopted (at 17 earth years) by Abena. She has about 95% Human DNA; 2% Rigel Reptilians DNA, and 3% other ET DNA. **Laitha** has 3 G-Spots, 2 ovaries, Sandy Brown Hair, Blue Eyes, Human/Snake like smooth-silky-skin which is light colored. She is 5 Foot 6 inch tall. She now is a Repair Tech for the Space Brothers. She also has a very slight forked tongue. Shanna kept her existence from me until she have been trained by the space brothers. On **9-9-2024** she joined our breeding Family at earth age **22** years.

Question: "Laitha, what is our aging rates for Apple & Sunshine Martin? Is it 1:5 or 1:6?

Answer: **Both! Apple** is 1:5 and **Sunshine** is 1:6 earth years.

3-10-2025 **Sasha Lee & Gule Martinez** to take a 5 year away mission to Orion in August 2025. (Very

Slow Transport. 3 month trip. Normally 2 week trip.) Sasha not happy. Don't want to go.

Both need this for their Space Brother jobs. Sasha upset. I'll talk to her. We set up long

range spiritual communications. "*Your UFO info is not meant for this current group of*

*humans. It is meant for the generation after your death. They will be very receptive to your research.*"

### **Diseases**

3-15-2025 Last night Susan and Daisy (*Doozy*) said; "There are cycle of diseases. In summer, when it

is hot & steamy, Bacteria based diseases peak! In winter when it is cold ,wet & snowy

viruses based diseases peak! Also, thunder storms help the body's autoimmune system build

up resistance by way of electric charges.

### **CTR Greys**

3-28-2025 **Question to Alfie about the greys ET pathological information:**

Are greys the most  
common type of ET? Alfie; " *Greys are not the most common type of ETs.*" What are the  
most common type? Alfie; " *Nordics! They are spread across our universe in vast numbers  
and in different colors & shapes.*" "Can you tell me the main types of greys?" Alfie; " *Some  
Nordics who use the viviparous method of child birth; and Some Nordics who use the test  
tube method. The test tube method uses egg & sperm which is very popular among the  
space brothers. They do this by way of their joining palms or hands together. The test tube  
method favored by some greys use cloning. That method can use different DNA from  
different Nordics & grey groups and combine them into a targeted result. This is not  
uncommon.*" So the greys do use the viviparous method? Alfie; " *Yes they do.*" How does that  
work? Alfie; " *When the grey is ready they just remove the child from inside the body. Most  
greys are sexless, so male & female don't enter into the process. It takes about 1 minuet to  
remove the baby. It is totally painless. Two greys can choose to have a baby, or a grey can  
choose the DNA they want and give birth as a solo parent.*

### **Berry**

4-11-2025 **Silver** (Abena's son) met a female we call **Berry**. That is not her real name. I can't  
pronounce her real name. So we agreed to call her "Berry"! She is a female from a different  
dimension. Her life cycle is about 10,000 earth years. They are trying to bring about a new  
bloodline with Silver's DNA. Silver met her on a research project. They were studying the  
idea in back of, and behind of, sound waves. I'm not sure if it has to do with the 1st motion  
of the creation? I really can't grasp it! Anyway, my Silver & her are thinking about mating.  
There are some issues they must solve first before that can happen. Kind of like Abena and I  
solving the Solid physical (vs) Etheric physical barrier. Silver is now a scientist! He study's  
sound. I can't understand the issues. They had to dummy it down for me! I gave them my

blessing. It is really way beyond my understanding. They seem to be happy. Berry is a scientist from a different dimension. Not sure if she is an energy being like the Siriusians?  
 They told me she is not a etheric base being like Silver. I am a 1st level matter being. Silver is a 2rd level matter being, so I'm guessing Berry is a 3rd level matter being? H.P.B. says there are 7 levels of matter in all! Berry also said that they will establish a symbiotic relationship between my autoimmune system and body bacteria & virus to help prolong my life cycle on earth. This will help my autoimmune system fight outside the body bacteria & viruses. They want to extend my life cycle. They plan to start doing medical interventions soon. I won't see any marks this time! I won't see any proof of their medical interventions this time. They said the Masters & the space brothers both requested this.

**David John Martin (Earth Son)**

4-21-2025 Starlight says; "In 1512 Mongolia Dave John Martin and I were married. We died separate deaths, Dave 1st, then I followed. It was a time of strife. Back then you were Starlight's father. Now Undal is my mother.

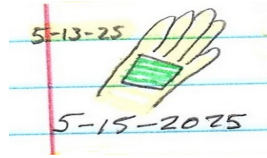

4-23-2025 Moboo said; "Light has Red Hair, Green Eyes and Pale White skin"

4-29-2025 Both Abena and Laitha on "gold shots".

5-10-2025 Shanna said the female Rigel Reptilians don't suffer as much at child birth like human women do!

5-13-2025 "Grandpa" (Undal's dad) Says; "You'll be approached by solid physical ET men in the future." Master M says; "You'll be asked questions by the scientific community in the future. You have been I.D. as a valued source of information".

5-13-2025 Etheric bio monitoring device installed by the ETs for health reports. ETs want to keep an eye on my health

5-17-2025 The space brothers mine minerals from the asteroid belt. They trade them to ETs races outside our solar system. I wonder do **Brace John & Big Al Jr.**, who are lawyers, handle these deals?

### **Baby Greys- Squidfish Donates**

5-18-2025 Undal with bun in the oven. **Jeff Martin**. ETs request Sperm cells be used to clone ET greys. I got two weeks to decide. Males produce sperm with either an X chromosome or a Y chromosome, not both, while their partner's eggs always carry an X chromosome. When an X-bearing sperm fertilizes an egg, it forms a XX combination, resulting in a female, and when a Y-bearing sperm fertilizes an egg, it forms an XY combination, resulting in a male. Therefore, the father's sperm cell, carrying either an X or Y chromosome, determines the sex of a baby grey. I view these as my kids also!

5-22-2025 Abena explained to me about how messy her child birth will be and why it would be shocking for me to be there at Clifford & Teresa's delivery.

### **Clifford & Teresa Martin.**

5-23-2025 **Clifford** born @ **12:15 PM**. **Teresa** born @ **1:10 PM**. Clifford: White skin. Blue eyes. Red hair. Teresa: White skin. Blue eyes. Blond hair. They had to use a frost ray on Abena's tummy. They didn't want to use any drug rays. This helped relax her tummy muscles. A lot of Nordics, Greys and Other types of ETs came to her room to visit. About 40. She is important to the space brothers. I was thanked for my sperm donation. Also, the Rigel Reptilians are very pleased that I mated with Laitha. There has been two clashes between the Space Brothers & Bad Rigel Reptilians recently. The Space brothers are using "Data" about me & Laitha's mating in negotiations with the Bad Rigel Reptilians! The Bad Rigel Reptilians won't be bothering us. They like the love I have for

their bloodline. They  
like my pride in the Reptilians and want to be kept in the loop. I judge  
the character and not  
the skin! The ET shrinks are coaching Clifford & Teresa how to cope  
with their births.

5-24-2025 My Kids are in the play toy room with other ET babies to learn how to  
roll over, crawl

And maybe stand up & fall. Big Fun! Abena off duty till Monday.  
Clifford & Teresa met  
other ET babies. All play with toys. Their mental abilities are way in  
advance than control  
over their bodies. They must learn how to control their bodies. Abena  
will be teaching them  
until Monday then the ET staff takes over. Laitha is also helping  
Clifford & Teresa too.

Laitha says the play room is the happening party house for the ET  
babies. She is also getting  
an education by watching the infants. At nap time the ETs use "Sleep  
waves" on the babies  
in the play toy room. There are some greys in this group. The Space  
Brothers want all of  
them to think they are in the same Space Brother Baby group. The  
Space Brother's view the  
Greys as their babies too!

### **Play Toy Room**

5-26-2025 Clifford & Teresa are in the toy room with other ET babies. They are  
learning how to sound

like earth "Bullfrogs". When my daughter Punky Doodle got off work I  
told her about

Clifford & Teresa making Bullfrog sounds. Jane said; "*God Dam! Her  
department at work*

*thought they had a bunch of bullfrogs in the building and spent an  
hour looking in every*

*nook and cranny trying to find them. It sounded like an invasion dad!"*

(The Defense Supply Center

Columbus (DSCC), which is home to the Defense Logistics Agency (DLA) Land and Maritime. The  
installation serves as a key logistical

hub for the Department of Defense (DOD).) The play toy room is strictly off limits to  
other ET staff except

parents. The A.I. Robots & ET grey caretakers are in charge. Abena  
back on duty. She was

with Clifford & Teresa on the 24th & 25th.

### **The Skinwalker Ranch Story**

5-30-2025 Heidi Says; "It all started with the war between the White & Black  
Magi of Atlantis 5

million years ago! A door was open to another dimension of hostile to

human "spirits like  
ETs" who were evil! When the good ETs found out about the door or  
portal, they sealed the  
dimensional breach to prevent any more evil coming to earth!  
Skinwalker ranch has been  
monitored since that time. The research at the ranch has come to an  
end. They have been  
allowed to discover this "dimensional breach" but can go no farther.  
That is, until the cycle  
comes when they will be allowed to once again explore it.

### **Heidi Update**

Also, from time to time Heidi's dad brought spoons, combs, knives,  
pans, and metal grills for  
cooking on fire pits. He also brought mirrors for the women to groom.  
They nailed a larger  
mirror to a big tree so the woman could adjust their grooming as  
needed. Plus, fabrics and  
other things. When the traders came to their place they traded for furs.  
This brought products  
from Europe into the village.

### **Stringfeild's ET colons & Robots**

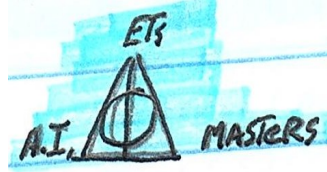

6-4-2025 My home shifts back and forth from hot to cold but the thermostat is  
always set on 73 degrees  
when my son stays overnight? He thinks I keep changing the settings.  
The kids are having  
big fun with us! Also, they make sounds. They want us to pay attention  
to them.

In Stringfeild Report: 'Part #9 UFO crash/retrievals: The Inner Sanctum-Status Report #VI July 1991'  
Stringfeild talks about a UFO landing  
with ET colons or robots in suspended animation!

My ET girls say; "This is most likely to give the USAF subjects for study.  
**Dr. Epigon** (Fake  
name - Physicist) speaks about some of them having teeth, ears, noses &  
mouths. These were  
5 feet tall and had oil like blood. These mostly likely are grey colons.  
ETs grow colons that  
are brown biped with teeth. They eat food. The androids don't eat food.  
Android biology is  
based on sunlight or electricity for food. Their biology is self-subsisting!  
Most greys are  
grown in test tubes, others greys breed like human beings. (see the Friendship  
Case, CTRs -Italy). Others  
use their hands like the Space Brothers. However, not all Space  
Brothers use their hands to  
breed. In the past some Space Brothers mated with Earth Males &

Female. It all depend  
upon the Occult Historical cycles".

So, there are two types of test tube greys: Plant Based & Animals  
Based. Also, Robots or  
Androids are grown from minerals in a vat or test tube.

6-12-2025 Other reptilians beside the Rigel Reptilians are interested in my health  
data. I gave them the  
Ok to do medical interventions.

### **Reptilcus**

6-16-2025 "Reptilcus" is a Reptilian. He is helping the Space Brothers heal the  
Moroxcilla infection or  
phlegm which is a thick, sticky mucus produced by the respiratory  
system and causes me to  
painfully cough". Also he will be there to watch **Laitha** give birth to  
**Apple & Sunshine**  
**Martin**. Reptilcus says her labor on the 17th will be easy.

### **Sunshine Martin born @ 9:45 PM. Apple Martin born @ 9:47 PM.**

6-17-2025 Reptilcus says that my old friend "**Bark**" is in the Andromeda Galaxy  
delivering supply's!

Bark say "Hi". Both Sunshine & Apple have Blond Hair, Blue Eyes and  
White skin which

is very smooth. Most likely their skin will turn olive as they age. No  
forked Tongues like

Laitha. The group of ETs babies born during this wave all attend the  
same toy play room.

They don't let older babies mix with young babies. All are of the same  
age. Apple &

Sunshine are playing with learn blocks. These have symbols on all 6  
faces. Their are

different groups of blocks by subjects: math, planets, ET Races,  
chemistry, Ships. They start

with culture and then advance into other subject as they age. These  
blocks help the moms

and teachers access the child life path. Apple & Sunshine are learning  
how to sit up. the

females are a little quicker at learning than boys. Its' a good mix of ET  
races. Later, the kids

will get into running. That's big fun for them! It is a group teaching  
method! Abena says;

Clifford & Teresa in languages class. They are learning how to speak other ET languages.

6-18-2025 Laitha has to file reports on Apple & Sunshine toy room sessions.

6-30-2025 Susan with a bun in the oven.

7-1-2025 Susan and I named our boy **Zaviour** which means "new house" or "bright".

### **Julie-Robin Martin born @ 6:30 AM**

7-6-2025 Izzy gave birth to Julie-Robin. She has Blond Hair, Blue Eyes and Brown Skin.

### **The Rigel Reptilians**

Have forked tongues which are link to their vagina g-spots. If males & female Rigel

Reptilians lick tongues they both become very aroused at matings. Once they mate as a pair

neither takes on another mate. If their mate dies they will stay single for the rest of their life.

If I lick Laitha's human forked tongue while kissing it leads to her orgasms during sex!

Also, I'm told that Female Rigel Reptilians tongues thicken up when they are pregnant. The

tongue play a big part in the choosing of a mate.

### **Rose Martin born @ 3:30PM. Amadeus Martin born @ 3:32 PM.**

7-7-2025 Rose has bright beautiful Red Hair & Blue Eyes. Amadeus has Blue Eyes & Blond Skin.

Both have White skin.

### **Rep-Til-O.C. Or "O.C." for Nickname**

7-24-2025 Laitha (Laithvia) and I will name our next daughter "Retiloc or "Rep-Til-Oh-See" We will

nick name her **O.C.** which is easier for human to pronounce.

7-27-2025 Ian John Martin signed his name on a Star Buck's coffee cup for Jane.

8-7-2025 Moboo said; "Sometime when **Light** is sleeping in Utero his eyes "glow" Not sure if he will do that after he is born.

8-15-2025 **Rose** wants to study propulsion. Heidi & I will name next child **Ralph Martin** or "**Patch**" for short!

8-20-2025 Girls confirmed the **end of the breeding program** after Heidi gets with bun in the oven.  
Just confirmed through Jane that Abena adopted Laitha on July 21st 2010.

### **The End of the breeding program**

3-4-2013 to 8-28-2025

8-28-2025 The ET doctors took sperm and egg from me and Heidi last night. My balls hurt. Heidi with child. We named him **Ralph Martin**. This end the breeding program

---

9-5-2025 Ralph Martin is the most advance soul in our breeding program.

9-6-2025 Master and the ETs want me to send a copy this log to Mufon Ohio. Their agenda is to divert funding away from the "*black hats*" and give it to the forces of light. The industrial surveillance complex is out of control. The military complex is out of control too. Not sure how sending them Rom's log helps?

### **Teleport Event**

Later tonight I went to see **Rich Johnston's** Band Play at a bar. On the way home my ETs kids teleported me five times! I made a tape recording of what happen when I got home in the morning. It was a hell of a night! (*See 9-6-2025 wave file*) I was teleported 5 times on **September 6th 2025** to prevent enemy ETs from harvesting Blood and DNA samples. My kids blocked their efforts to abduct me (*see wave file for details.*) I used a tank full of gas to get home.

9-10-2025 **Fake Phil Coseski**  
The guy on Facebook who claims to be Phil Coseski might be an impostor. Both Jane & I got the same info. I was told Phil Coseski died of lymphatic cancer? the

fake Phil never

responded to my friends request. I am not sure of the truth? Abena says he was a close friend of Phil's. This person is using A.I. to photo shop Phil's likeness. My girls sent a diplomatic message to the bad ETs who tried to abduct me for Blood/DNA. They told them to stand down!

9-17-2025

The girls just re-confirmed that my Rom Chronological Event Log be sent to Mufon Ohio.

I sent it but it came back. They moved to a new address so I sent it to their new address.

Master says there are 3 maybe 4 generals who are enlisting solders for a overthrow of

Trump. They are waiting for the right time when the protest mobs hit the streets before they act.

### **Scott Martin (Izzy's Son)**

Scott John likes boredom. Charlotte his wife likes that about Scott. "We see so much

violence these days that boredom relaxes us". Trump plans to meet with the military brass.

Master Mohammed Sofiane Mesbahi just told me that the brass are going to lock Trump up

on and aircraft carrier if he try's to become a dictator at that meeting! The brass will take control. They will take over the Supreme Court and big media if needed.

9-27-2025

Rose & Amadeus were play chase in 2 UFO scout ships. The ETs use play as a training tool.

My skin glows white at night in the dark. I am taking in more light into my body.

### **Ru**

Jane-Anne says that Annie's boyfriend is named "Ru". Ru told me he is from Mars. They met

on Mars. The whole family wants them to mate. He took the initiative and came to me and

asked why Annie is the way she is? I tried to explain it to him. Annie is a redheaded hybrid

ET human! I have the Redheaded DNA gene in my bloodline. Towards the end of the Lemurian cycle their arose a clan of red haired human/primates. I gave them my blessing to mate. Annie wanted to be sure. She said she will decide by this Friday. My baby girl is way to cautious about mating. (*Note: Her caution proved to be correct. He cheated on her later.*) She won't tell me his name until she decides? These kids of mine are a trip! Reminds me of Lynn & I. Sometimes they behave like their birth moms. Other times they behave like the other mothers in the group. Sometimes they behave like their brothers or sisters? I will get my answer on October 14th 2025.

10-10-2025

**Annie & Ru** mate.

### **The Bubble People of Andromeda**

**Starlight** says: "they inhabit a small area of Andromeda. About one square light year. They live on vast beaches. Limestone sand type of beaches. They secrete bubbles from their bodies which are deadly to the space brothers. They don't travel outside their zone much. The space brothers have to wear protective suites to interact with them. by nature, the bubble People are very loving & kind. They do not have wars. Mating is very strange! It occurs inside a big foam of bubbles which is hard to see. The space brothers are not sure how it works. The bubble people won't let them watch".

### **Vegetation Mate Guarding**

**Starlight** (Undal) says: "In the vegetation kingdom on Earth male and female sort of mate. It is common for them to join roots. If something attacks the female plant the male plant will help defend it. Like humans, male and female plants guard each other. Either in groups or in one on one relationships. This follows the law; as above so below-so below as above!"

### **Jeff Martin (Womb)**

**Starlight** says: He is quirky. He is unusual and not common in his thinking. His approach to things is unusual. Jeff likes to watch.

Shanna was giving birth to Clark, Iris & Sybil around the 1987 cycle.

11-10-2025

Abena says: "Test tube Food grown in the lab will be much more healthier for humans, and taste better. Killing animals for food will be a thing of the pass. Mega-farming will start to be replaced with mega-labs by 2030! A lot of big farms will fade out like the horse & buggy! There will still be a few small farms that kill animals for food for those who still want it. But, it will be very expensive."

11-11-2025

A new nick name for Heidi's son **Ralph**. I will call him "*Mouthy*". Heidi says Ralph will hit 7 ft tall when he grows up.

### **The Varginha UFO Crash in Brazil**

Izzy says: **The Varginha UFO Crash in Brazil** were solid physical ETs from the Uranus moon Oberon. They have low tech which allowed them to come the earth. It was a three ship mission. One ship got into trouble. Earth's gravitational forces; that is, pockets of gravitational turbulence ripped the hull. This caused the crew to panic and the chemical fire got out of control. The ship crashed. There was some explosions. The American Retrieval team transferred the wreckage to America. Clifford Stone was on the retrieval team but did not telepathically interact with the ET crew. The ET crew were in fear of their lives. So they ran. They split up in hopes of being able to make contact with the two remaining ships. They thought the town might have they wireless-tech they needed. These ETs had oily skin which was a body waste product that was also part of their auto-immune system. It fights toxins that they might come in contact with. The waste also smells. The smell serves as a flight or flight communication within their group. Their ET skin is deadly to humans. These ETs from Oberon have a biology based on sulfur & ammonia. Their mission was to mine

For "Calcite". and take it back home to Oberon. They use this for propulsion & atmospheric uses. The "Calcite" is one of their main materials use in their propulsion as fuels, Hence, the white smoke seem from the hull while the UFO tried to hover in repair mode! They also use it to filter their air systems. When the Americans did the autopsy they found the lymphatic system of the Varginha Brazil ETs was used as a cardiovascular system. The devil horns bumps on their heads are used for sexual reproduction.

### **Paul Amadeus Dienach Story**

I asked Master M about the **Paul Amadeus Dienach Story!** He said; "The story is not on our timeline. It was an alternate timeline. There are many mansions in our father house. It is a parallel timeline A1. It was one reincarnation on two different timelines. The same soul in 1921 & 3906 A.D." I then ask master; "Why am I making so many mistakes"? He answered; "It is the cycle you are passing through. Everyone is making those mistakes".

12-6-2025

Master M says; "Our goal is to bring you up to speed on psychic history 101"

### **My Work**

Master & I will be working on pushing back on the A.I. system. Our goal is to show that it has no solutions. A.I. equals "no profits" for most investors! At this point in history the wealthy want to use A.I. to control the masses by way of public opinion. This is what Trump & Putin want. If you don't go along then you suddenly find your I.D. & Pin Numbers to your accounts have been changed. Add this fact that Humans are no longer used in customer service and one can see the impact on the uneducated & older generations. It seems they want to kill off the seniors who can't navigate these changes. With the uneducated they want blind allegiance to A.I. calling all the shots. I'll be pushing back against these tactics. They blame the cyber hackers but it can be traced back to Elon

Musk and his gang.

Elon Musk led the Department of Government Efficiency (DOGE), an advisory initiative established in January 2025 by the second Trump administration to cut federal spending, reduce the workforce, and deregulate. Aiming to cut trillion, the project was marred by controversy, faced legal challenges, and ultimately failed to meet its targets, with Musk departing in May 2025 before the initiative was dissolved. I seek to show that their A.I.

Solutions will not yield the promised profits or savings for investors. When Putin invaded

Ukraine he used the Nuclear War card to block aid to Ukraine. So I got kicked off Twitter, X,

Facebook and Blue Sky for promoting the Idea that he was bluffing about starting a nuclear

war. We pushed back on Putin's "Fear Card". Me and **Master Mohammed Sofiane Mesbahi**

used Ideas, Truths, Philosophy & Mass Psychology to push back against the PR Campaigns.

With Trump we focused on the "*Constitution & Free Speech*" to get the public pissed off about

his Neo-Nazis agenda. However, I now only use A.I. for research on my questions. To me

A.I. is useful only as an encyclopedia or dictionary. A.I. is not useful as a form of

gate keeping. It tends to favor only the for profit agenda. It is not being deployed fairly in

the social arena. A.I. is not making life more fair or conformable for the lower and middle classes.

### **Jeff Martin.**

Undal gave birth to **Jeff** at **2:54 PM**. His eyes are blue. Hair is light red but will turn brown

as he ages. Skin is white. He wants to become a Saturn warrior. Undal says he likes to eat.

She breast feeds him all the time. Jeff should be able to stand by 12-20-2025. He is being

trained on how to use his body in the toy room. The toy room is the nursery used after birth

for 2 to 3 months old babies. When the kid reaches 2 to 3 years earth year old, all things

being equal, they are ready for the learning tubes. Keep in mind these kids mature at different rates.

### **Jimbo & Jane**

**Jimbo** born at **2:14 AM**. **Jane** born at **10:14 AM**. Jimbo made Jane birth easier by being born

1st! This was less stressful for Jane. There were no medical problems with their births. Jimbo

is a more spiritual advanced soul than Jane. Jimbo: White skin. Red hair. Blue eyes.

Jane: White skin. Red hair. Blues.

### **Powers of the Mind & Soul.**

I asked my girls what good are these? Answer: "Better to have them when the need comes than not!"

### **Light Martin**

I & Moboo's son wants to become an Electrical Engineer.

### **Psychic Research**

Psychic Research is on going in certain secret enclaves world wide. Some nations are trying to

train psychic warriors & spy's. This will bear some fruit but not much. Why? It is not in the

plan of evolution for this cycle. However, it will be needed for travel to other worlds. What is

the effect of Trump on America in 15 years? Answer: 1.) No more 5 major news outlets. The 5

big media outlets are being replaced by citizen journalist. 2.) Free speech will be tightly fact

checked for truth before being allowed to be publicly published. On line media will be replaced

big media. The right to publish will become highly prized by citizen journalism. False news

will become a thing of the past.

### **Dream Testing**

**Ingo Swann & Dr. Shafica Karagulla** speak of "**Night Class**" when we go to sleep at night.

I call this "**Dream Testing Training**". Last night in my dreams I was shown what the energies

look like from the 3rd person Point Of View. When I evoke some needed force I don't see the

big picture. I only see my P.O.V. The big picture is massive & powerful with lots of colors. At

seeing the big picture I now understand why they always tell me to use a little bit. They say,  
that is enough Al. They cut me off. It is way to powerful for my body.  
When I woke up I was  
overwhelm and disorientated from the power of that higher realm of consciousness. Master  
Maitreya said I will be tapping into that dimension to do my final mission to raise mass  
consciousness. This healing power he will use to overshadow my healing hands; words or  
healing speech, and other psychic skills. I was told that I am half done with the 3rd initiation  
called the "Transfiguration" where my light body takes on more radiant energy. Sometimes the  
in black darkness of the night my skin glows white. Please note there are 5 initiations;  
*birth, baptism, transfiguration, crucifixion and accession.* After accession you get to choose if  
you want to reincarnate or not. It looks like maybe I'll reincarnate 2 more times? Not Sure? So  
now, master has showed me how the sausage is made! Master is going to restore my health to  
help me finish my earth mission. This last 3rd of my life is why my soul chose to come back  
to earth. I am doing what *Ingo Swann & Dr. Karagulla* did. Help humans evolve. I talked to  
Reptilcus. He Adopted "**O.C.**" We are co-fathers to "**Reptiloc or Reptiloh-see**"! Reptilcus is  
a **General** in the **Rigel Reptilians** space force. Him and his 3 sons are on loan to the space  
brothers. The 1st son works in linguistic; the 2rd son works in communications, And the 3rd  
son works in strategy!

2-4-2026 **Laitha's** daughter **Sunshine** wants to go into Biology. **Abena's** daughter **Teresa** wants to go  
into Chemistry. Master came to me in a dream. When the time comes I will post the word  
"DONE" on social media. Elon Musk's A.I. surveillance will see this. Then Elon Musk's  
empire will collapse! Not sure how a word can do this? Master will tell me when to act.

### **Reptilcus**

**Reptilcus's** wife died 3 years ago. He has 3 kid who are grown & married out on the outer rim  
of our solar system. He says **O.C.** reminds him of his kids.

2-26-2026

**"Reptiloc or Reptil-Oh-See" O.C.**

**O.C.** Born at **6:17 PM** today. Blue Eyes. Yellow Hair. White Skin.

**Zaviour Martin**

**Zaviour Martin** born at **4:44 AM**. Blond hair. Blue Eyes. White skin.

Susan's Family nick name is "**Kara**". Abena is working the asteroid belt. The ETs track the big ones that can harm earth. They don't track the small ones that would burn up in the earth's atmosphere. The big asteroids may be useful for mining at some point. They don't smash them to bits.

**Izzy** last name is **Wambe**. That is **Izzy Wambe**. Isa means star on **Mars & Venus!** Wambe is her family name.
